Non-HMIS Prioritization List as of 11.12.2023

SYSTEM PERFORMANCE

Elements Used in the CoC Competition

Reduce the Number of People Experiencing Homelessness

Reduce the Number of First Time Homeless

Reduce the Length of Time Homeless

Increase Successful Permanent Housing Placement or Retention

Decrease Returns to Homelessness

Increase Jobs & Growth

Reduce the Number of First Time Homeless

First time homeless is defined as a person who has not been served by the homeless system in the two years prior to an entry into that homeless system.

Element – CoC Competition	2022	2021	Percentage Change
Reduction Between FY21 and FY 22	7305	7202	1.4% increase

To get the number of first time homeless, there are 3 steps.
(1) Using HMIS data, add the number of people who entered an emergency shelter, safe haven, and transitional housing during the report period.
(2) Using HMIS data, calculate the number of people were in emergency shelter, safe haven, transitional housing, and all permanent housing projects in HMIS 24 months prior to their entry during the report period.
(3) Subtract the total from Step 2 by the total from Step 1 to calculate the number of persons experiencing homelessness for the first time.

First Time Homeless
